

# School of Crystallography

## Departmental seminars

### Summer 2008

Prepore and pore forms of the bacterial toxin *pneumolysin*.

The following seminars take place on Mondays from 13.00-14.00 in the Glaxo-Wellcome seminar room (B62), School of Crystallography, Birkbeck. All are welcome to attend.

Monday 21 April	<b>'Predicting RNA binding from protein sequence properties'</b> Dr Sue Jones, University of Sussex [Host: Dr Irilenia Nobeli]
Monday 28 April	<b>'Receptor protein tyrosine phosphatase mu - measuring where to stick'</b> Professor Yvonne Jones, Wellcome Trust Centre for Human Genetics [Host: Dr Claire Naylor]
Monday 5 May	<i>Bank holiday</i>
Monday 12 May	<b>'The five nanometre pathlength; methods to investigate model membranes assembled on solid surfaces'</b> Professor Jeremy Lakey, Institute for Cell and Molecular Biosciences, The University of Newcastle [Host: Professor Bonnie Wallace]
Monday 19 May	<b>'Image processing of vitreous sections'</b> Achilleas Frangakis, EMBL, Heidelberg [Host: Dr Elena Orlova]
Monday 26 May	<i>Bank holiday</i>
Monday 2 June	<b>'Mechanisms of Protein Kinase Regulation and Inhibition revealed by Structural Comparison'</b> Dr Stefan Knapp, Structural Genomics Consortium (SGC), Oxford University, [Host: Dr Alona Sosinsky]
Monday 9 June	<i>Seminar speaker to be announced</i>
Monday 16 June	<i>There will be no seminar this week. ISMB Symposium</i>
Monday 23 June	<b>'Insights into histone arginine methylation from structural and biochemical studies of CARM1 methyltransferase'</b> Dr Wyatt Yue, Section of Structural Biology, The Institute of Cancer Research [Host: Dr Cara Vaughan]
Monday 30 June	<b>'Protease involvement in host cell invasion and exit by the malaria parasite'</b> Mike Blackman, NIMR [Host: Professor Helen Saibil]
